rayence DPX PLUS

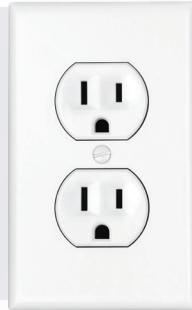

No X-ray Room Needed

DPX PLUS Mobile X-Ray System eliminates the need for a dedicated exam room, freeing up valuable space in your facility for other essential functions.

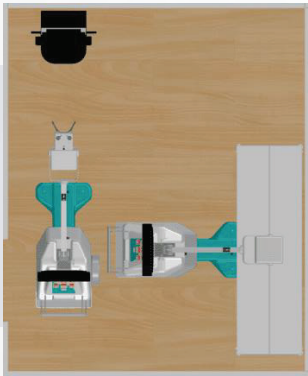

Standard Power Compatibility

The DPX PLUS operates with standard 120V power, eliminating the necessity for any special power arrangements. It's seamlessly compatible with your existing infrastructure.

1417WCE-HR

The top of the line high resolution model with 100µm pixel size

Minimal Space Requirement

DPX PLUS' compact design, requiring just 8' x 10' of space, optimizes space utilization. It's perfect for facilities with limited space.

Digital and Wireless Technology

Experience the convenience and efficiency as images are captured digitally and transmitted wirelessly for instant access and analysis.

Specification

Parameter	DPX PLUS
Generator Type	High frequency Resonant Inverter Microprocessor controlled
